MEMORANDUM FOR 152 AIRLIFT WING

FROM: 152 AW/CC

SUBJECT: Nevada Air National Guard Environmental Management System Policy Statement

1. At the Nevada Air National Guard Base, protecting the environment is one of our highest priorities and will be a major factor in decision-making. We are dedicated to continued improvement of our processes to prevent and reduce waste generation. We will maintain compliance with federal, state and local environmental laws and regulations as well as Executive Orders, U.S. Air Force instructions and guidance and other requirements. We have identified objectives and targets for prioritized significant aspects and impacts related to Base activities.

2. 152 Airlift Wing activities include operating and maintenance of C-130 aircraft with the support of corrosion control, aerospace ground equipment, vehicle maintenance, administrative functions and facilities maintenance. In all of our activities we will seek to:

- Promote the conservation and sustainable use of natural and manmade materials;
- Minimize environmental pollution and waste;
- Build environmental concerns into all policies, programs, and missions;
- Integrate environmental information into all levels of management;
- Achieve continuous improvements in environmental performance over and above regulatory and legislative requirements; and
- Work in partnership with all stakeholders to promote waste reduction.

3. The 152 Airlift Wing has achieved an enviable environmental record within the Air National Guard. Through continued emphasis on being good stewards of the pristine Northern Nevada environment in which we share with the local community, we prove that we are good neighbors and citizens within the region. This environmental policy is made available to the public through public notices such as posting on the Wing's public

website. This policy statement supersedes the 19 July 2005 152 AW/CC NVANG EMS Policy Statement.

GARY M. TURNER, COL, NVANG
Wing Commander
